	- Bob has talked with and both are free to attend and participate, as appropriate.

•	On 13 May, Ray met with two colonels from the Defense Attache school (DATT), Defense Intelligence College. The DATT school believes they have a void in their course structure. The students are not getting an overal picture of the intelligence problems being faced and addressed by the Community.
	 The DATT school management and students had seen our Narcotics Study and were impressed. They were anxious to hear about other subjects we have addressed.
	 The DATT school has requested that Ray brief their students on the rol of the CIPC, intelligence problems we are addressing, and our approach for developing remedial solutions to various intelligence shortfalls.
	The DATT school subsequently requested that I brief the students on 28 June, 1500-1600 hours.
